

Clearance Letter

20712 Lembcke Rd.
Harvard, IL

On 4-22-17 a mold inspection and testing was conducted at the above address to determine if elevated mold conditions exist within the property. A full visual inspection was performed and samples were collected from the following areas:

- * Indoors: N/A
- * Surface: Attic sheathing
- * Outdoors: N/A

Laboratory analysis of the samples taken show that elevated mold conditions were not found to exist for the property listed. No further action is required based on the visual inspection and laboratory results.

If you have any questions or concerns, please contact us.

Sincerely,

Anthony Cooper
